PROFESSIONAL SUMMARY

AI Growth Strategist with 10+ years of experience in marketing, music, and digital ecosystems. Builds AI-powered systems that identify opportunities, optimize performance, and reduce operational costs. Combines creative strategy with data-driven experimentation to drive scalable audience growth, engagement, and revenue.

CORE SKILLS

AI & Automation: AI Prompt Engineering, Workflow Automation (Zapier, APIs), Decision Systems & Optimization, Data Analysis & Experimentation

Growth & Marketing: Digital Marketing & Paid Ads, Social Media Growth Strategy, Content Strategy & Creation, Branding & Storytelling

Tools & Platforms: Salesforce, HubSpot, Chartmetric, Spotify for Artists, Adobe Creative Suite, Video Production & Editing

Keywords: AI Strategy, Growth Marketing, Automation, Predictive Modeling, Experimentation, Optimization, Digital Strategy

PROFESSIONAL EXPERIENCE

Venice Music | Senior Marketing Strategist | 2021–Present

- Developed data-driven campaign strategies for Aminé's TwoPointFive, contributing to 75M+ streams
- Increased fan engagement by 18% across Instagram, TikTok, and X through performance-based content strategies
- Leveraged analytics tools to identify growth opportunities and optimize campaign performance
- Partnered cross-functionally with sync, brand, and marketing teams to drive revenue and audience expansion

LAAMAJ Media | Founder & Creative Director | 2014–2020

- Led branding and marketing campaigns for music and lifestyle clients, increasing digital reach by 200%
- Produced social-first content driving 50K+ monthly organic impressions
- Built and executed audience growth strategies across platforms, improving engagement and visibility

The Atom Factory | Artist Development Assistant | 2014–2020

- Supported marketing campaigns for artists including Kamasi Washington and Nico & Vinz
- Coordinated cross-functional efforts across A&R, marketing, and management teams

- Contributed to campaign execution through content strategy and data insights

AI & AUTOMATION PROJECTS

AI Decision Engine for Market Prediction (Kalshi Bot) | 2026

- Built AI-powered decision system that reduced infrastructure cost from \$230/month to \$0, improving net system profitability
- Designed probabilistic modeling framework using calibration and edge detection to identify high-confidence opportunities
- Achieved 100% win rate across initial closed trades (early-stage sample) with +\$18.82 realized P&L
- Automated real-time scoring and execution across multiple strategies with integrated risk management
- Demonstrated how cost-efficient AI systems can outperform multi-model architectures through optimized filtering and decision logic

EDUCATION & CERTIFICATIONS

California State Polytechnic University, Pomona | B.A. Music Industry Studies

Google Data Analytics Certificate – Coursera

Certified Social Media Specialist – The Knowledge Society
